

This page lists some of the rare Hindu manuscripts and rare books about Hinduism, no longer in publication. The books are available for download.

1. A very old manuscript [1924 print] "**Nilamata Purana**". The book highlights the state of Kashmir and has mentions to dates/events as back as 1182 BC. Initial introduction is in English. The major portion of the book is in Sanskrit and my anticipation is it may give some knowledge about Hinduism and state of Kashmir. (Contributed by Ramesh Morkhandikar).
