

Aatmeeya Bandhuvar & Bhagini Pranaams

We are pleased to share that by the grace of *Bhagavan* and the blessings of elders, laced with good wishes and magnificent efforts put in by all karyakarta Bandhus/Bhaginis, we have now reached the **first milestone** of procuring the land for the Hindu school. The formality of Land registration in the name of Hindu Education and Cultural Centre (HEACC) is now complete.

Raising approximately **4.5 million dollars** through direct contributions/ loans from the community and like-minded organisations is probably one of the biggest achievements of the Hindu samaj in Australia to date.

We do have to overcome many more challenges to realise our dream of welcoming students to an Independent Hindu mainstream school. However, this is an important milestone achieved through combined efforts of a committed team.

We applaud & appreciate each and every member of this community for the wonderful support extended during this challenging period, wherein six temples are being built simultaneously in and around Sydney.

Let us together, continue to motivate the wider community to support this noble cause through regular monthly contributions, donations and volunteering in the area of their choice and expertise, as we are in the process of setting up different teams to work in parallel focusing on important tasks that need to be accomplished soon.

Congratulations to the entire Hindu Samaj as we have shown that together we can achieve a feat that was only imagined, but not achieved till now and we look forward to your continued support & guidance in making this dream a reality- Jai Shree Ram -Team HEACC
